Deena Graves founded Traffick911, a Dallas-based anti-trafficking nonprofit that has received national recognition for her copyrighted *Traps of a Trafficker* youth prevention-and-identification program. *The Traps* also has handed child sex traffickers multiple felony arrests and convictions, including an unprecedented four life sentences for one pimp. Deena is an international award-winning communicator who uses that expertise to give a voice to children whose voice and hope have been stripped away by those preying upon them for their own pleasure and profit. Deena is pursuing her doctorate in Strategic Leadership.
