**The joy of hands-on art making is brought to life in this FREE special class!**

Together with a parent or caregiver, children will explore a variety of mediums and construct sensory-rich, art pieces to take home. Utilizing paint, glue, glitter, found objects and more, children will practice fine motor skills, enhance their creative development, and increase language, vocabulary, and literacy skills. This is a wonderful opportunity to participate in your child's artistic exploration and discovery. All families need social connections for healthy parent and child development.
