GREAT NEWS!

Because of the enthusiastic response for this class, a new round of classes will begin on Fridays starting on January 8th, 2021!

Want to Learn

Facilitated by

Jeremy Vik

In this juggling class, the goal will be to learn the 3-ball cascade pattern. You will learn how to effectively aim a juggling ball and know where to look to successfully catch that thrown ball. Before you know it, you will add a second ball and soon be juggling 3 objects confidently. Technique will be a cornerstone of this class, but having fun while doing so is also very important! This class is open to absolute beginners, but if you already have some juggling skills, feel free to join us in refining your technique and learning the steps to becoming a juggling master.

Jeremy Vik has been juggling professionally for over a decade, including performances in France and for sold out audiences of 1200 with a circus theatre adaptation of Alice in Wonderland in Riga, Latvia. He currently teaches juggling to both adults and youth at Circus Center while he waits for live performance to become safe again.
