Summer bingo is great because it can be adapted to fit anyone! However, keeping a wide range of people happy while playing is never an easy thing to do. Following these tips and tricks definitely helps with that aspect!

- If you are playing with older kids or adults, a great way to keep the game interesting and increase motivation is to offer a prize at the end! There are tons of prizes you can give away. They don't have to be big or glamorous, they just need to be fun. Prizes could include homemade cookies, beach balls, the chance to have the first pick of something special, a lei, or even just something simple as the first one to get dinner.
- Team up! This is a great way to invite some friendly competition to your game. You can play in partnerships, or kids vs. adults to see what team can all get bingo first.
- Have the kids create the bingo cards with ideas, paper, ruler and markers.
- Pack a travel bingo game to play in cars for road trips

Whether you choose to use the summer physical activity bingo, fill in your own activities on the blank board, or create your own giant summer bingo board, your kids will love seeing the different activities in store for them this summer!
